

A Future with Perspective

From University to Umicore

Umicore is a technologically leading company with activities in precious metals, advanced materials and zinc specialties. It currently employs 14,000 people and generated a turnover of € 8.8 billion in the last financial year.

Umicore AG & Co. KG in Hanau is part of the Belgian Umicore group located in Brussels.

Umicore's overriding goal is to ensure sustainable quality and to develop, manufacture and recycle materials in a way commensurate with its stated mission: creating 'materials for a better life'.

The Umicore Group avails itself of manufacturing operations on all continents and serves a global customer base.

The most precious raw material of all does not come from the ground, but from the cerebral recesses of our employees. It is comprised of their engagement, their knowledge and their unfailing dedication to arriving at the best solution.

We understand your determination to succeed. You have the stamina, capacity, ideas and knowledge.

Umicore provides you with the opportunity to make a dynamic contribution. You'll discover that working to the best of your abilities is great fun.

You'll also relish our culture of good-humoured openness that encourages the frank and congenial exchange of information and views, and a progressive management style, which allows for your full participation in the decision-making process and assures you of the creative freedom you need to exercise innovative thinking and attain to vital objectives.

If such prospects excite your curiosity, you'll be pleased to know we're seeking:

- » Chemists (anorganic) with experience in the field of heterogeneous catalysis
- » Engineers proficient in electrical engineering or mechanical engineering with experience in the domain of automotive exhaust after-treatment
- » Materials scientists, preferably in the area of materials engineering

If you feel eminently qualified to accept the challenge offered by any of our current vacancies, then simply submit your application without delay. We very much look forward to hearing from you.
